Participating entities

Representatives from 3 different entities have attended the kick off meeting, which has been hosted by Svetes pamatskola. The main aim of this strategic partnership is, through the exchange of good practices, to strengthen the competences of teachers and other agents in the educational community to favor inclusion, allowing an optimal level of learning and an integral development of students.

In this project, participants will acquire tools to improve the quality of their teaching methods in maths, natural sciences and literacy, as well as to promote inclusion and interculturality in the classroom, and digital learning and linguistic diversity among their students. They will also learn to deal with disruptive behaviors in the classroom and other barriers to learning.

After the meeting, the attendees had the opportunity to enjoy the beautiful surroundings of Jelgava.
