Agreement number: 2018-1-LV01-KA201-046963

Participants from 3 different entities have attended the first learning activity of the project, which has been hosted by Montessori School. The main aim of this visit was to introduce the Montessori Method and the routines used at their school to encourage student motivation, concentration, inclusion and learning. In addition, the other partners presented to the Warsaw School educational community their best practices performed by their organisations, through 2 workshops.

In this project, participants had also enough time to observe the classroom environment and learn in a practical way the application of the Montessori method and its results.
