Social entrepreneurship in Lithuania

Social business conception (2015 m.)

3 main aspects:

- Business – constant commercial activity providing services/products
- Social – pursuit of socia/environmental goals
- Management – limited profit distribution, transparent management

4 main criteria

- Continuous economic activity must pursue the main goal of measurable and positive social impact
- The profit received is reinvested
- Profit is managed responsibly and transparently, involving stakeholders in the management
- Independent of state or municipal institutions and bodies

SME law (2024)

Social business is an economic activity that aims for socially beneficial goals, social and/or environmental impact, and is carried out by social economy entities.
